Dr. Joshua Lederberg  
Department of Medical Genetics  
Stanford University Medical School  
Stanford, California

Dear Dr. Lederberg:

A couple of years ago at David Hamburg's house you accosted me with a question. I was never very satisfied with the answer I gave to that question. If you have the time and the interest I should appreciate your reaction to the answer contained in the enclosed paper.

Sincerely,

  
Jerry Hirsch  
Professor
